

International Conference on
Nanophotonics and Metamaterials

METANANO 2018

17-21 September 2018
Sochi, Russia

METANANO

is an annual international conference that brings together researchers in the fields of nanophotonics and metamaterials.

METANANO 2018 will be the hub for researchers working in the fields of nanoscience, metamaterials and related topics, providing a great opportunity for networking and sharing the results of their research.

The conference will take place in Sochi, the host city of Winter Olympics-2014 and famous for its spectacular mountains and sea views.

The conference is organized by the Nanophotonics and Metamaterials Department of ITMO University and is supported by Mediterranean Institute of Fundamental Physics.

TOPICS

- Plasmonics and Nanophotonics
- Quantum Photonics
- Photonic Crystals
- Bionanophotonics
- Nanomaterials and Nanoengineering
- Metasurfaces and their Applications
- Nonlinear Optics
- Physics of Excitons
- Nanoantennas and Nanocircuits
- Solar Energy
- THz Technologies
- Imaging and Sensing
- Acoustic and Elastic Metamaterials
- Microwave and Optical Metamaterials
- Emerging Applications
- Medical Applications
